Knee Arthroplasty with KneeAlign[®] 2 using Genesis II[®] and LEGION[®]

Hip Arthroplasty with OrthAlign Plus[®] using POLARSTEM[®] & R3[®]

Visiting Surgeon Program (VSP)

Adelaide, Australia

Supporting healthcare professionals for over 150 years

Visiting Surgeon Program

Dr Andrew Comley
Subject to availability

Description

Dr Comley's practice is based in South Australia and is dedicated to surgery of the hip, knee & shoulder. After obtaining his fellowship from the Royal Australasian College of Surgeons (FRACS) in 2002, Dr Comley travelled internationally to gain post-graduate fellowship experience. He completed a Fellowship in Adult Reconstructive Surgery (Hip & Knee Joint Replacement) at University Hospital, London, Ontario, Canada under the guidance of Dr Robert Bourne. Following this, Dr Comley moved to the United Kingdom and completed a Knee reconstructive, sports injury & Arthroplasty fellowship at Royal Sussex County Hospital in Brighton.

Learning Objectives

After participating in the Direct Anterior Approach (DAA) Hip program, participants will be able to:

- Select appropriate patients for the procedure and formulate a pre-operative plan
- Competently undertake and successfully complete the Direct Anterior Approach
- Select and use DAA instrumentation correctly, exposing and closing the wound safely
- Plan operative steps and outline post-operative management for DAA cases

After participating in the Arthroplasty program with OrthAlign[®], participants will be able to:

- Understand how OrthAlign[®] technology can reduce outliers and help achieve surgical goals
- Use KneeAlign[®] 2 for both tibial and femoral navigation
- Navigate cup placement, leg length and femoral offset using OrthAlign Plus[®]

Participant Profile

The ideal candidate for this VSP has a genuine interest in learning DAA or how to use OrthAlign[®] technology to navigate Smith & Nephew products during Knee or Hip Arthroplasty; is an experienced orthopaedic surgeon focusing on adult knee/hip reconstruction and has a good comprehension of the English language.

Products and Technologies

The products and technologies used are POLARSTEM[®] and R3[®] and OrthAlign Plus[®] for Hip Arthroplasty and Genesis II[®] LEGION[®] with KneeAlign[®] 2 for Knee Arthroplasty

Typical Agenda

07:30 Meet at the Hospital

Surgery 1

Post-operative discussion

Surgery 2

Post-operative discussion and review

Guests depart

* Additional surgeries may be possible depending on daily surgery schedule
